

Due to our lack in numbers we have had to be a little creative with this age group. We did not feel that doing a coed league was the answer and our numbers are to big for 3v3 street style. Our solution we will be to play 9v9. However, we will redraw the teams each game so that we will always be playing with and against new players. We feel that this was the best solution but still gives our players the opportunity to play the correct style and appropriate way.
